KI / LIFE ENERGY

Dragon Ball-inspired flow, drawn as a conceptual guide.

VIGOR
Vitality and energy

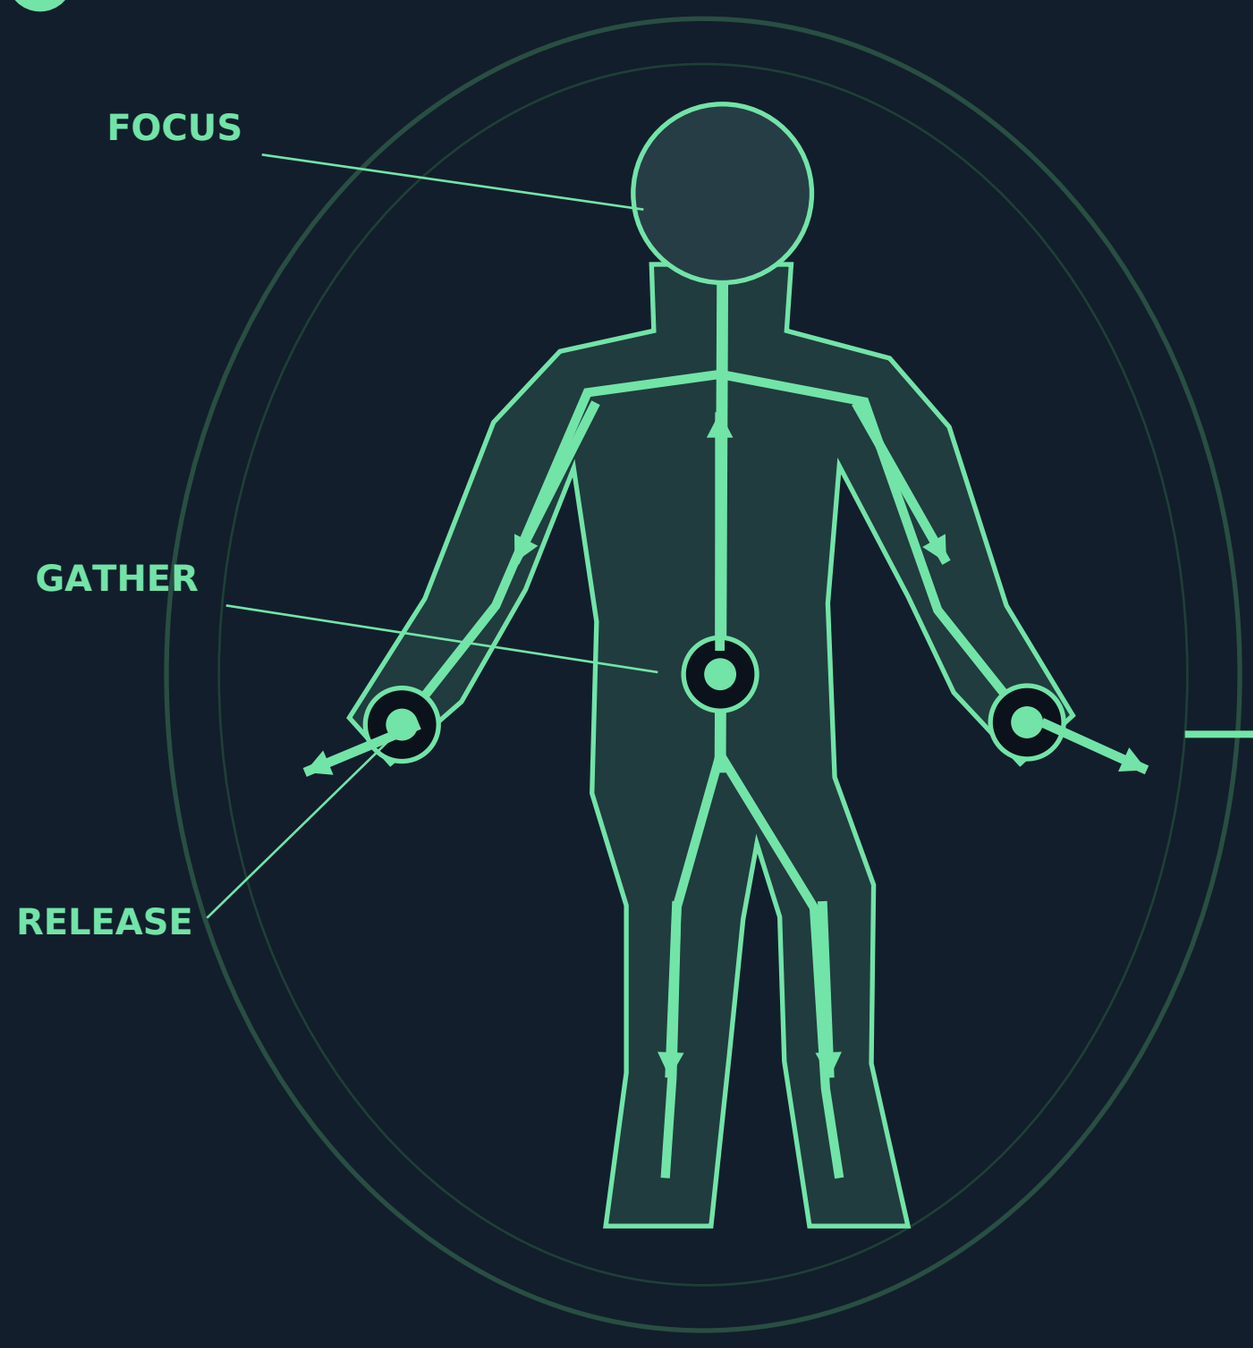

COURAGE
Will and resolve

MIND
Focus and composure

GATHER / FOCUS / CONTROL
Choose how much energy to channel.

These are aspects of ki, not elemental ingredients.

1 CHANNEL THROUGH THE BODY

Illustrative paths, not a fixed anatomical map.

2 DIRECT THE OUTPUT

BODY
Strength, speed, durability

PROJECTION
Blasts, beams, energy spheres

MOVEMENT
Flight and controlled motion

DEFENSE
Energy barriers and shields

OTHER KI SKILLS

Sensing energy / Suppressing presence / Sharing energy

NO STANDARD ELEMENT WHEEL

A green aura does not automatically mean wind, nature, or healing.

LUCID / PROPOSED HYBRID RULE

Ki supplies the force. Chakra shapes the technique. His green aura is a visual signature; his elemental affinities can be chosen separately.

Reference: Dragon Ball ki. Lucid hybrid rule is an original design proposal.

CHAKRA / FLOW + ELEMENTS

Naruto-inspired reference: the body network, five natures and fusion.

1 MAKE CHAKRA

PHYSICAL ENERGY
Body and cells

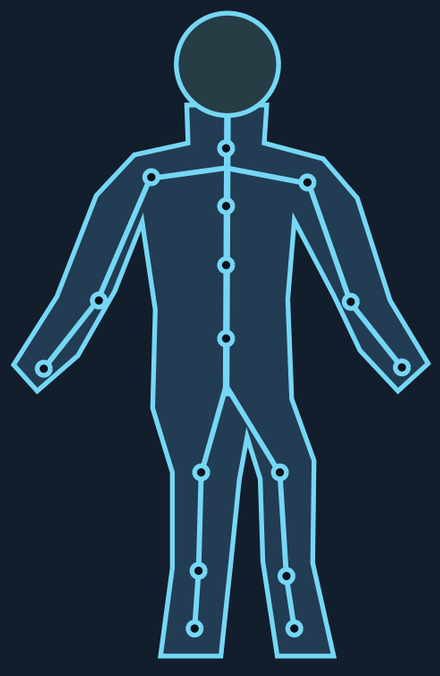

+

SPIRITUAL ENERGY
Mind and experience

→

MOLD CHAKRA
Blend physical + spiritual energy

2 CIRCULATE + CONTROL

Simplified pathway network

Pathways carry chakra through the body.

Tenketsu regulate flow and release.

→

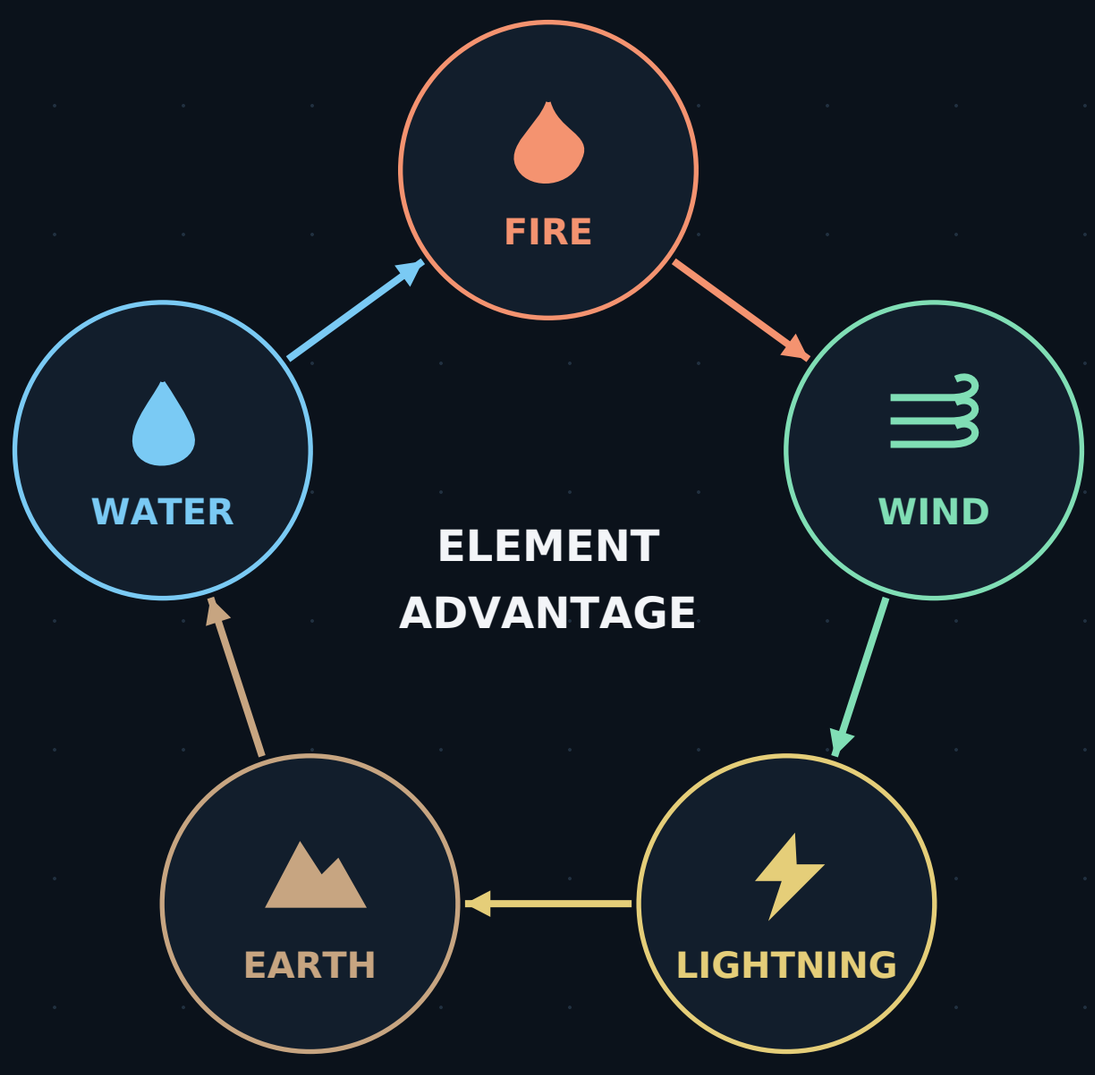

SHAPE
Form + movement

NATURE
Element + properties

JUTSU
A technique can use shape, nature, or both.

3 FIVE BASIC ELEMENTS

Arrows mean "has the natural advantage over".

BEYOND THE FIVE

YIN
Spiritual energy; imagination and form.

YANG
Physical energy; vitality and life.

YIN-YANG
Combines the two non-elemental natures.

SAGE / SENJUTSU

Physical + spiritual + natural energy, balanced together.

A different energy blend, not a sixth basic element.

Comparable techniques; strength and skill still matter.

4 COMBINED ELEMENTS

Most require a special bloodline or ability; knowing both elements is not enough.

Water + Wind	→ ICE	Water + Lightning	→ STORM
Earth + Water	→ WOOD	Fire + Wind	→ SCORCH *
Fire + Earth	→ LAVA	Wind + Earth	→ MAGNET *
Fire + Water	→ BOIL	Earth + Lightning	→ EXPLOSION *

Fire + Wind + Earth → DUST / PARTICLE THREE-NATURE FUSION

* These component pairings are inferred or implied, rather than equally explicit.

No standard confirmed core pairing: Fire + Lightning; Wind + Lightning.

SPECIAL / EXPANDED-MEDIA RELEASES

Blaze controls Amaterasu. Other named releases include Crystal, Dark, Steel, Swift, Typhoon and Mud; their origins and component recipes vary by source.

LUCID CONCEPT: ki-driven force + chakra technique + later sage mastery.

Sources: Naruto official elemental cycle; Narutopedia: Chakra, Nature Transformation, Senjutsu.
